

Be A Part Of...

East Harris County Manufacturers Association Workforce

Do you ever read labels? You'll find "made in" followed by a lot of places like China, Malaysia or Philippines. Might make you think nothing is made in America. But you'd be wrong.

From Temperpedic™ mattresses, paint, Styrofoam™, tires, pillows, medical devices, gasoline, diesel, to plastics—our companies make all of these. This takes a lot of good people. Local manufacturers need more workers with advanced training and skills.

Find a great job that fits your interests, your skills, and your passions—right here. A job to be proud of and put \$\$ in your pocket.
