

Career Exploration

The student will watch the 2020 Career Exploration with PetrochemWorks video at <https://youtu.be/wNfbjFCwQaY> , and then work through the website www.petrochemworks.com using the “Match Me” tool and be matched with careers based on their choices. After being matched with careers the student will prepare a presentation or report based on one career.

Each presentation or report should include the following:

- Career position name
- Expected hourly or yearly salary
- 3 Critical Skills
- 3 Key Responsibilities
- What is a possible career map for this position?
- Is this a career path that you can see yourself in? Why or why not?

The image is a screenshot of the PetrochemWorks website. At the top, it says "PETROCHEM NEEDS YOU" and "Discover The Path To YOUR Dream Job". Below this is a row of five images showing different people in various roles: a man holding a baby, a man in a safety vest, a woman in a hard hat, a woman in a yellow safety suit, and a woman in a lab coat. Below the images, it says "GET STARTED NOW!" and "Find Petrochemical Jobs that Fit Your Interests". There is a "MATCH ME" button with the text "TO THE PERFECT CAREER". Below this, there are three columns of information: "PETROCHEMICAL INDUSTRY IS HIRING NOW" with a link to "Learn About Employers", "YOU CAN MAKE \$70K OR MORE" with a link to "Learn About Education", and "THOUSANDS OF OPEN JOBS" with a link to "Learn About Careers".
